

# Wildlife Checklist (for front of Wildlife Report.)

## A.1 Protected and priority species (relates to question 13a in the planning application form).

A tick or cross must be placed in all boxes in column two and then, where there is a tick, all other boxes in that row. The final column only needs to be filled in where this clarifies the location of a species on a large site e.g. location of a great crested newt pond or bat roost. Where species are present this information will be sent to Devon Biodiversity Records Centre.

Location: Runnon Moor Hatherleigh

Grid reference for centre of site (6 digit): SS 534 038

Planning Application reference:

Name of surveyor: Peter Beale

Year that surveys carried out: October 2016

Species - terrestrial, intertidal, marine	Walkover shows that suitable habitat present? <u>Tick or cross</u>	Detailed Survey needed?	Detailed survey carried out and included ?	Species Present or Assumed to be present on site <u>Indicate with P or A and name the species</u>	Impact on species?	Detailed Conservation Action Statement included?  Sets out actions needed in relation to avoidance / mitigation / compensation / enhancement	NE licence required?	Grid reference for specific location of species (if required for large sites)
<b>Bats (roost)</b>	Possible, but only in trees in hedges	No				Trees will be unaffected		
<b>Bats (flight line / foraging habitat)</b>	Probable					Hedges will be retained		
<b>Dormice</b>	No							
<b>Otters</b>	No							
<b>Great crested newts (*check consultation zone)</b>	No							
<b>Cirl buntings (*check consultation zone)</b>	No							
<b>Barn owls</b>	No					Partial restoration of Culm could provide feeding habitat		
<b>Other Schedule 1 birds</b>	No							
<b>Breeding birds</b>	No							
<b>Reptiles</b>	Possible grass snakes					Partial restoration of Culm could provide feeding habitat		
<b>Native crayfish</b>	No							
<b>Water voles</b>	No							
<b>Badgers</b>	No							
<b>Other protected species e.g. tentacled lagoon worm, native oyster, seahorse, fan mussels</b>	No							
<b>Species of principal importance</b>	No							
<b>Invasive species</b>	No							

- for information on Devon consultation zones for cirl buntings and great crested newts go to [http://www.devon.gov.uk/index/environmentplanning/natural\\_environment/wildlife/linksfurtherinformation.htm](http://www.devon.gov.uk/index/environmentplanning/natural_environment/wildlife/linksfurtherinformation.htm)

## A.2 Designations / important habitats / sites of geological importance (relates to questions 13 b & c in the planning application form)

A tick or cross must be placed in all boxes in column two and then, where there is a tick, all other boxes in that row.

Designation	Within site or potential impact. <i>Tick or cross</i>	Name of site / habitat	Detailed Conservation Action Statement included in report ?	Relevant organisation consulted & response included in the application?
<b>Terrestrial, intertidal, marine</b>				
<b><i>Statutory designations</i></b>				
European designations - Special Area of Conservation (SAC), Special Protection Area (SPA) and RAMSAR site or within Greater Horseshoe consultation zone	No			Natural England
Site of Special Scientific Interest (SSSIs)	No			Natural England
Marine Conservation Zone (MCZ) ( <i>not before 2012</i> )	No			
Local Nature Reserve (LNR)	No			Relevant Local Authority -
<b><i>Non statutory wildlife designations</i></b>				
County Wildlife Site (CWS)	No			
Ancient woodland	No			
Special Verge	No			Devon County Council -
Habitat of Principal Importance / BAP habitat	No			
Local Biodiversity Network (mapped by Devon Wildlife Trust / through Green Infrastructure work)	No			
<b><i>Non statutory geological designation</i></b>				
County Geological Site (CGS or RIGS)	No			Devon RIGS group -
